EB5 Capital's Highline Union Market Project Receives I-526 Approvals

Washington, DC – EB5 Capital announced today that multiple I-526 approvals have been received by investors in its project, Highline Union Market, in Washington, DC.

"Achieving I-526 approvals is extremely rewarding for our investors," said Gustavo Marchesini, Investor Relations Manager. "We are thrilled to continue to see our EB-5 projects receive I-526 petition approvals."

Highline Union Market is a \$27.5 million preferred equity investment in Level 2 Development, FCP, and Clark Enterprises' construction of a 318-unit luxury apartment building with approximately 10,000 square feet of ground-floor retail space. The Highline is one of five EB5 Capital projects in the immediate vicinity located in the growing NoMa/Union Market neighborhoods of Washington, DC. The project will provide necessary housing for the fastest-developing section of the District and is expected to create more than 760 EB-5 qualifying jobs.

"Our investors place a great deal of trust in our ability to help them achieve permanent residency in the United States," said Andrea Devis Focke, Investor Relations Manager. "Reaching an I-526 approval is an important step and we look forward to working with our clients through the completion of their EB-5 investment cycle."
